**COOKE COUNTY RFQ
FY 25-02
Addendum 1
May 5, 2025**

- 1.) Is the county looking for a comprehensive team for the entire scope of services or can we submit for a few selected services (like geotechnical engineering and construction materials testing only)?

You can submit on a few selected services

- 2.) Under the scope of services for: Other projects that would require consulting, design, and or solutions by a licensed professional, Does Cooke County desire submissions for mechanical, electrical and plumbing design, commissioning and/or 3rd Party Design Review for Storm Shelters (ICC500)?

No

- 3.) Are you looking for one Engineering firm to have a Team that does the entire scope of work, or Engineering firms to submit with the pieces of the scope of work they can perform? For Geotechnical and Materials Testing do those services need to be part of the Prime Engineering Firm's team that is covering all of the scope or can we submit just for our services.

You can submit with pieces that you perform and/or submit just for your services

- 4.) For RFQ-FY25-02 Engineering Services, it states that the proposal should be no more than 20 pages in length and there are a handful of required forms that also need to be submitted within the proposal requirements. Can you confirm if the required forms are included in the 20-page limit or if they are excluded from the total page count?

Those forms are excluded from the 20-page requirement. They would be in addition to
