January 27, 2025

The Honorable Brad Morgan, President
Members of the Board of Directors, and
Member Cities of the Greater Texoma Utility Authority

The Annual Comprehensive Financial Report of the Greater Texoma Utility Authority for the fiscal year ended September 30, 2024, is submitted for your consideration. The Authority staff is responsible for the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures. We believe that the data presented is accurate in all material respects and that they clearly disclose the financial position and results of operations of the Authority as measured by its financial activities. We believe the report contains the information necessary to enable the reader to gain the maximum understanding of the Authority's financial activities. The financial statements present complete details concerning the Authority's fiscal year activities and related costs.

Management's Discussion and Analysis

The Authority was created by the cities of Sherman and Denison to provide financing, planning, project administration, and operation and maintenance for water, wastewater, and solid waste activities. Since its inception, the Authority has performed each of these services for various member cities and other water providers in its service area of Collin, Cooke, Fannin, Grayson, and surrounding counties. The Authority attempts to be responsive to its member cities and other retail water and wastewater providers in the area. Efforts are made to plan for these activities as far in advance as possible. The challenge of the Authority management is to be able to respond to its member cities and water and wastewater providers in a timely fashion.

Originally, the Authority's activities were primarily financing; however, over the years many of the cities and retail water providers have become increasingly dependent upon the Authority for additional functions such as operations assistance, management activities, as well as responses to regulatory agencies. The Authority's policies have always been designed to try to accommodate our member cities and water providers in any way possible. It is anticipated that this philosophy of service to its members will continue.

Background of the Authority

In 1979, the Texas Legislature was asked to enact legislation that would permit the creation of a conservation and reclamation district under the provisions of Article XVI, Section 59 of the Texas Constitution. After the enactment of this legislation in 1979, an election was conducted in the Cities of Denison and Sherman to permit the creation of this special purpose district to serve the needs of the cities in this area with water, wastewater, and solid waste services.

After the confirmation election in Denison and Sherman, other area cities petitioned to become part of the Authority. At the present time, eighteen cities in Collin, Cooke, Fannin, and Grayson Counties are member cities. The Cities of Anna, Denison, Gainesville, Sherman and Van Alstyne are Home Rule Cities. The Cities of Bailey, Collinsville, Ector, Gunter, Howe, Leonard, Muenster, Pottsboro, Tioga, Tom Bean, Valley View, Whitesboro, and Whitewright are General Law Cities. The member cities are responsible for appointments to the Board of Directors governing the Authority's operations. The City of Denison appoints three board members to Places 1, 2 and 3. The City of Sherman also appoints three board members to Places 4, 5 and 6. The City of Gainesville, City of Anna and City of Van Alstyne appoints one board member to Place 7 and Place 8, and Place 9 is appointed by the General Law Cities.

The original 1979 enabling legislation was amended by Senate Bill 1270, passed by the 68th Legislature, Regular Session, 1983, to change the name of the organization to the Greater Texoma Utility Authority. This bill became effective June 17, 1983. The Authority's enabling legislation was amended a second time in 2003 to make minor changes in procurement procedures. Another minor modification to the enabling legislation was made in 2011 to allow a larger percentage change to construction contracts by change order. The Authority operates under Chapter 49 of the Texas Water Code.

The Honorable Brad Morgan, President
Members of the Board of Directors,
and Member Cities of the Greater Texoma Utility Authority

The Economy

The geographic location of the Authority's service area lies immediately north of the Dallas-Fort Worth Standard Metropolitan Area. While the Authority has some projects in Collin, Denton and Wise Counties, its primary service area is Cooke, Fannin, and Grayson Counties. Collin County has much closer ties with the Dallas-Fort Worth Metroplex than Cooke, Fannin, and Grayson Counties. Although rapid urbanization is moving through Collin and Denton Counties into Cooke and Grayson Counties, Fannin County continues to be a more rural economy.

The Texas economy has experienced some of the same recessionary effects as the United States economy. The overall unemployment rate for the State of Texas increased slightly from 3.8% in 2023 to 4.1% in 2024. The Counties as a whole, have been affected by the Pandemic. Locally, the unemployment rate in our area is slightly less than the State average. Grayson County increased slightly to 3.8%. In Fannin County, the unemployment rate increased slightly to 3.3% in 2024. Cooke County's unemployment rate increased to 3.7% in 2024. Collin County, which is closer to the urbanized areas in Dallas/Fort Worth, the unemployment rate also increased in 2024 to 3.7%.

Sales tax receipts are often used as a barometer of economic activity. Using that benchmark, Collin, Grayson, and Fannin Counties economies are doing well despite the unemployment rates. The Cooke County economy is closely tied to oil and gas energy activities. Several large energy companies are located in Gainesville and their sales can significantly fluctuate from year to year.

The Authority remained engaged in the regional water planning activities of Region C which is the 16 counties of North Central Texas including the Dallas-Fort Worth area. The regional water planning activities are a part of the State Water Planning effort. The regional area contains 7.6 million people in 2020 and is expected to have 14.7 million people by 2070. Providing water resources and financing for this growing population remains a challenge to the water providers in this area. The prolonged drought that has impacted Texas for several years has caused an increased concern about future water supplies in North Central Texas. Fortunately, the area served by the Authority has an ample water supply secured from Lake Texoma.

The Authority has several projects that are under design and/or construction for the City of Sherman. The new Lab Building at the wastewater treatment plant uses the last of the funds in the TWDB 2020 bond issue and will be under construction in January 2025.

The Authority issued bonds in 2022, 2023, and 2024 for design and construction of several major infrastructure projects including but not limited to water treatment plant expansion, pump station expansion, major transmission pipeline, elevated storage tank, and wastewater treatment plant expansion as well as a new wastewater treatment plant for the Texas Instrument's new semiconductor manufacturing plant and Global Wafers' silicon wafer factory coming to the Sherman area.

The Authority also issued bonds for the engineering and construction of some improvements to the City of Van Alstyne's water system. The final project with these funds will add ammonia feeds at one of the City's well sites which will set the City up long term for receiving surface water. This project is currently under construction and is expected to be completed in 2025.

The Authority issued bonds through the TWDB in 2021 to fund the addition of a new elevated storage tank for the City. The City is growing, and they need to increase their elevated storage capacity to maintain compliance with state regulations. The project was bid out in 2023 and construction is expected to be completed in 2025.

The Authority issued three (3) bond series to build a new elevated storage tank and replace Lake Kiowa SUD's aged asbestos cement pipelines. The elevated storage tank and phases 1, 2, 3, and 4 are now complete. The Authority is in the process issuing additional bonds through the TWDB in 2025 to construct phase 5 of the water line replacements. Construction will begin in 2026 and is expected to be completed in late 2026.

In 2019, the Authority issued bonds for the City of Pottsboro, to construct a new wastewater treatment plant and lift station. This project will expand the city's treatment capacity to keep up with a growing service area. This project is currently under design and during the design process the engineers have recommended that we pursue additional funds due to the recent inflation in construction and materials prices. The Authority issued additional bonds for additional funds. This project is under construction and is expected to be completed in 2025.

The Honorable Brad Morgan, President
Members of the Board of Directors,
and Member Cities of the Greater Texoma Utility Authority

The Authority issued bonds for the City of Whitewright in late 2019 to construct a new water well, ground storage tank, pump station, re-coating of an elevated storage tank, and water line replacements. The project was divided into three separate projects. The water line replacement and new water well is under construction and will be completed in early 2025. The bond issuance did not have significant funds to fund all three projects due to the ongoing inflation in construction pricing and delays in materials. The Authority was invited to apply for additional funds through TWDB. The bond issuance is expected to close in 2025.

The Authority issued bonds through the TWDB to upgrade the City's wastewater treatment plant. This will be a major rehabilitation which will replace multiple treatment units that have deteriorated after decades of use. The project is currently under design and is expected to be under construction in 2025.

The Authority issued bonds in 2024 for the Bear Creek Special Utility District to construct a new pump station with pressure plane improvements, a 2,000,000-gallon-ground storage tank and a new 500,000-gallon composite EST. The pump station and pressure plane improvements were recently awarded, and construction will begin in early 2025. Bidding for the other projects will take place after construction is well underway on the pump station project.

The Authority issued bonds in late 2022 to fund an expansion of the Bloomdale Pump Station for the Collin-Grayson Municipal Alliance. The work will consist of the following components, add a 4th pump and motor, VFDs, soft starters, add 2 additional stages to the three (3) existing pumps, additional ground storage tank, SCADA upgrades, Backup Generator, piping and pressure relief additions, all associated electrical, plumbing and earthwork and appurtenances. The project was bid out in 2023 and is currently under construction. The project is expected to be completed in 2025.

The Authority has closed on a new bond issuance through the TWDB to fund a new wastewater treatment plant along with a lift station and force-main to divert wastewater from the City of Henrietta to the new facility. The project is under design currently and is expected to be under construction in 2025.

The Authority issued bonds through the TWDB in 2022 to fund improvements to the City of Bell's water and wastewater system. The wastewater project will include improvements to the City's WWTP in addition to potential wastewater collection line replacements. For their water system, this issuance will fund a new water well, ground storage tank, meter replacements, and the replacement of some of the aged water lines in the City's water distribution system. Meter replacement was completed in 2024. The WWTP is currently under construction with completion in 2025. The water lines replacement project will begin construction in early 2025. The water well is anticipated to receive bids in March 2025.

The Authority closed a new bond issuance in 2022 through the TWDB to fund the planning and design of a wastewater project(s). The City of Valley View's WWTP is nearing capacity and experiencing inflow and infiltration challenges. Additionally, The City has aged sewer lines that need replacing. The Planning and design for this project occurred in 2023-2024.

The Authority is pursuing a bond issue in 2024-2025 for the construction of the WWTP improvements and wastewater line replacement based on the findings of the testing completed in the planning phase and the results of the design work.

The Authority closed a bond issuance in 2022 through the TWDB to fund the addition of a new water well, ground storage tank and pump station to the City of Dorchester's water system. The project will advertise for bids in early 2025.

The Authority closed a bond issuance in 2022 through the TWDB to fund the addition of a new elevated storage tank to Northwest Grayson Water Control Improvements District No. 1 water system. The system is growing and approaching the limits of the TCEQ's elevated storage requirements. The project was recently awarded, and construction will begin early in 2025.

The Authority issued bonds in 2023 through the TWDB to fund an electrical improvement project for Gober MUD's water system. The project is under construction and is expected to be completed in 2026 due to long lead times for generators.

The Authority issued bonds through the TWDB in 2023 to fund a new well and elevated storage tank for White Shed WSC's water system. The project is under design and is expected to be in construction in 2025.

The Honorable Brad Morgan, President
Members of the Board of Directors,
and Member Cities of the Greater Texoma Utility Authority

The Authority closed a new bond issuance in 2022 through the TWDB to fund the replacement of the water transmission main along Foundry Road. The City of Gainesville's current transmission main is 80+ years old and suffers significant leaks. Construction began in late 2024 and is expected to be completed in 2025.

The Authority is anticipating issuing bonds through TWDB in 2025 for replacement and upsizing of aged sewer lines.

The Authority issued bonds in 2024 to fund a 300 GPM water well, a 200,000-gallon elevated storage tank and a disinfection, control and electrical building, with appurtenances for the Arledge Ridge Water Supply Corporation. The project is currently in the design phase.

The Authority met with Hickory Creek SUD to discuss multiple projects needing funding for the water and wastewater system. The Authority is anticipating issuing bonds through TWDB for a new elevated storage tank and water line improvements for Hickory Creek SUD in 2025.

Additionally, the Authority is anticipating issuing bonds through TWDB in 2025 for a new system acquired by Hickory Creek SUD recently. These bonds would be used to fund needed improvements to the water and wastewater system.

The Authority is pursuing bonds for Bartley Woods WSC in 2025 to fund installation of two (2) 50,000 gallon ground storage tanks, one (1) 5,000 gallon 100 PSI hydropneumatics tank, and one (1) 5,500 gallon 100 PSI hydropneumatics tank, four (4) new 25 HP pumps with a corresponding lift station, controls, and yard piping, and a new 1,800 foot well with corresponding transmission line. These projects will address storage capacity and water loss issues within the system.

The Authority is pursuing bonds for Ravenna-Nunnelee WSC in 2025 to fund a project to correct the low pressures in the system by installing larger lines to reduce pressure loss in the distribution system and to install generators at the offsite well and 2 pump station sites.

The Authority is pursuing issuing bonds in 2025 to fund a new water well and replace/upsizes existing waterlines for the City of Southmayd. Project is currently in design phase and construction would begin in 2026.

The Authority is pursuing bonds on behalf of five (5) entities, College Mound SUD, Becker-Jiba SUD, Gastonia Scurry SUD, Rose Hill SUD, and North Kaufman WSC, to fund the South Transmission System Pipeline which would provide water from NTMWD to these areas. Design of the project is ongoing.

Solid Waste Activities

During the 2023 fiscal year, the Authority continued to maintain the Dripping Springs Landfill site, which was closed in 1993. The Authority is required to conduct post-closure activities at the landfill to make sure that water and air quality requirements are met. The Authority was able to reduce the frequency of testing required on water quality in 2011; however, gas monitoring is still required and is expected to be required for several years. At the present time, this facility is in compliance with all post closure requirements of the Texas Commission on Environmental Quality. Groundwater monitoring of the facility is required every four years, which was done in 2021.

Contracted Services

➤ Water Production and Wastewater Treatment Services

For many years, the Authority has offered Water Production and Wastewater Treatment Services to its member cities and entities. The Authority continues to provide these services to any public supplier requesting them. At the present time, the Authority serves eight public water suppliers.

The Honorable Brad Morgan, President
Members of the Board of Directors,
and Member Cities of the Greater Texoma Utility Authority

Accounting System

The finance and accounting system utilized by the Authority is established on an "Enterprise Fund" basis. Each activity undertaken by the Authority is established as a distinct and self-balancing accounting entity. All the services undertaken by the Authority must be accomplished on a self-sustaining basis. Each project or service must generate the necessary revenues to pay for the expenses involved in providing the service.

The Authority employs a system of internal controls designed to protect and safeguard the assets and produce reliable financial information. Disbursement responsibilities are divided to assure maximum possible internal control. The costs of the control systems are reviewed periodically to ensure that they do not exceed the benefits provided by the controls established.

The budget planning is initiated each June in preparation for the following fiscal year's activities. This process begins by utilizing the existing contractual obligations that the Authority has to member cities as well as any new requests for services that may have been received by the Authority. Once adopted, it becomes the responsibility of the staff to implement the budget as approved. A budget amendment is required for any expenditure expected to exceed approved budgets. During 2023-2024 fiscal year, revenues totaled \$27,259,018 and operating expenses were \$19,885,625. In 2022-2023 operating revenues were \$26,344,288 and operating expenses were \$18,377,893.

Long-term Financial Planning

The Authority's long-term financial planning process is influenced substantially by the Capital Improvement Plans (CIP) which is adopted by some of the larger cities. These CIPs normally extend over a five-year period, and while they are subject to change, it does give the Authority some indication of future financing needs for water and sewer improvements programs. Many of the smaller cities and water supply corporations do not have formal five-year CIPs but can normally predict at least one year in advance what their capital needs are likely to be. The challenge for the Authority is to be able to respond to these capital needs by providing financing necessary to construct these improvements through the most economical financing method available. Often this result in contract revenue bonds being sold to the Texas Water Development Board (TWDB), however, for the larger cities, the Authority has been able to utilize conventional bond sales. Many times, the Authority can utilize private placement for financing for either the large or small cities.

In 2009, the Authority began to operate the Collin/Grayson Municipal Alliance water line and be responsible for the collection of revenues and for wholesale water sales for those four cities and any other retail water providers that may be approved to obtain water from this source. The Authority's reserve accounts are required by bond conditions to contain one year's average principal and interest. Low reserve accounts have not been a problem for the Authority. Reserve accounts are filled within 60 months of the debt issuance.

Impact of Financial Policies

The only policy that might impact the Authority's current budget is the five-year limit on investments. This provision prevents investing in securities with longer maturities which have higher yields and net more revenue for the Authority.

Audit and Financial Reporting

Section 50.371 of Vernon's Texas Civil Statutes requires an annual audit of the Authority's records by the State Auditor, or by independent certified public accountants selected by the Board of Directors. The present audit firm is Pattillo, Brown, & Hill, LLP. The Authority has received an unmodified opinion each year since its creation in 1979. The latest audit for the period ending September 30, 2024, has been received and copies of this report have been filed with the Texas Natural Resource Conservation Commission and the Texas Water Development Board.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Greater Texoma Utility Authority for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2023. This was the thirty-fifth consecutive year the Authority has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Honorable Brad Morgan, President
Members of the Board of Directors,
and Member Cities of the Greater Texoma Utility Authority

A Certificate of Achievement is valid for one year only. We believe our current report continues to meet the Certificate of Achievement program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of the Annual Comprehensive Financial Report requires the cooperation of the auditors, the staff, and the Board of Directors. We wish to acknowledge the leadership and support of the Board of Directors.

Respectfully submitted,

Paul Sigle

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Greater Texoma Utility Authority
Denison, Texas

Report on the Audit of the Financial Statements***Opinions***

We have audited the financial statements of the business-type activities, each major fund, and the aggregate remaining fund information of Greater Texoma Utility Authority (the "Authority"), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of the Authority, as of September 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The Authority's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The combining and individual fund statements and schedules, other supplementary information, and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, other supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information included in the Annual Comprehensive Financial Report

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2025, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Greater Texoma Utility Authority (the "Authority"), we offer readers of our financial statements this narrative and overview and analysis of the financial activities of the Authority for the fiscal year ended September 30, 2024. Please read it in conjunction with the independent auditor's report on page 1 and the Authority's Basic Financial Statements that begin on page 11.

AUTHORITY PROFILE

The Greater Texoma Utility Authority was created pursuant to enabling legislation and the applicable provisions of Chapters 30, 49, and 54 of the Texas Water Code. The Greater Texoma Utility Authority is a political subdivision of the State of Texas. By legislative approval in 1983, the entity's name was changed from Greater Texoma Municipal Utility District to Greater Texoma Utility Authority. In the beginning, the Authority encompassed the entire territory within the boundaries of the cities of Sherman and Denison, Texas. Through an election held on August 1, 1979, both cities confirmed the Authority's legislative ability to issue revenue bonds, contract for services related to water, sewer, or solid waste activities and to implement any other activities that member cities might wish to contract for and finance. After creation of the Authority, the cities of Gunter, Howe, Pottsboro, Tioga, Tom Bean, Whitewright, Whitesboro, Gainesville, Muenster, Bailey, Valley View, Leonard, Van Alstyne, Collinsville, Ector and Anna each requested annexation to the Authority and were annexed through the actions of the Authority's Board of Directors.

The Authority's Board of Directors is comprised of nine members who were appointed by the city councils of the member cities of the Authority. Three members of the Board each are appointed by the cities of Denison and Sherman, while the City of Gainesville and the City of Anna appoint one member each and one at-large member is chosen by the remaining member cities. The administrative offices of the Authority are located at the North Texas Regional Airport and provide operational and management control of the Authority's operations.

FINANCIAL HIGHLIGHTS

The Authority's combined net position was \$38,886,442 as of September 30, 2024, of which \$4,009,082 is unrestricted net position available for future unrestricted spending.

During the year, the Authority's net position increased by \$5,315,797. This increase primarily resulted from debt payments exceeding depreciation cost for the year, as well as increased interest income.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

The Authority presents its financial statements using the economic resources measurement focus and accrual basis of accounting which is the same measurement focus and basis of accounting employed by private-sector business enterprises. The basic financial statements can be found on pages 11 through 18 of this report and the notes to the financial statements immediately follow on page 19.

The statement of net position presents information on all the Authority's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating. All the Authority's assets are reported whether they serve the current year or future years.

The statement of revenues, expenses and changes in net position presents information showing how the Authority's net position changed during the most recent fiscal year. It provides the user information on the Authority's operating revenues and expenses, non-operating revenues and expenses, and whether the Authority's financial position has improved or deteriorated as a result of the year's operations. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows for future fiscal periods. Liabilities are reported regardless of whether they must be paid in the current or future years.

The statement of cash flows presents the Authority's cash and cash equivalents during the period reported on. This information can assist the user of the report in determining how the Authority financed its activities and how it met its cash requirements.

The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the statements and can be found beginning on page 19 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents *supplementary information* consisting of combining and individual fund financial statements and schedules and other supplementary information. These combining and individual fund statements and schedules can be found on pages 30-276 of this report.

FINANCIAL ANALYSIS

The Authority enters contracts with its participating entities to provide certain water and sewer facilities. Revenues for the Authority are derived from participating entities for amortization of bonded debt, reserve fund payments, a pro-rata portion of the administrative and overhead costs of the Authority, extraordinary or unexpected expense payments, and the cost of maintenance and operation of the projects if the Authority is the operator.

Statement of Net Position

	2024	2023
Current and other assets	\$ 519,974,500	\$ 453,486,945
Restricted assets	8,299,717	58,538,432
Capital assets (net)	<u>441,398,383</u>	<u>216,820,665</u>
Total noncurrent assets	<u>449,698,100</u>	<u>275,359,097</u>
Total assets	<u>969,672,600</u>	<u>728,846,042</u>
Deferred outflows of resources	188,716	209,504
Current liabilities	83,361,832	35,311,056
Noncurrent liabilities	<u>847,613,042</u>	<u>660,173,845</u>
Total liabilities	<u>930,974,874</u>	<u>695,484,901</u>
Net position:		
Net investment in capital assets	32,210,871	22,815,806
Restricted	2,666,489	12,951,593
Unrestricted	<u>4,009,082</u>	<u>(2,196,754)</u>
Total net position	<u>\$ 38,886,442</u>	<u>\$ 33,570,645</u>

Net position may serve over time as a useful indicator of an entity's financial position. In the case of the Authority, the total net position equaled \$38,886,442. The largest portion of the Authority's total net position in the amount of \$32,210,871 represents the Authority's net investment in capital assets (e.g., land, construction in progress, equipment, etc.) less accumulated depreciation and the related debt that was used to acquire those assets. Another portion of net position, \$2,666,489, represents resources that are subject to external restrictions on how they may be used. These constraints are comprised of external restrictions imposed by bond covenants to maintain mandatory sinking funds for debt service. Thus, these resources are not available for using to finance the day-to-day operations of the Authority. Unrestricted net position is the part of net position that can be used to finance day-to-day operations is \$4,009,082 as of September 30, 2024.

Statement of Revenues, Expenses and Changes in Net Position

	<u>2024</u>	<u>2023</u>
Operating revenues		
Charges for Services	\$ 27,259,018	\$ 26,344,288
Total operating revenues	<u>27,259,018</u>	<u>26,344,288</u>
Operating Expenses		
Operating expense	8,362	10,647
General and administrative	9,765,876	8,642,985
Maintenance and repair	223,438	207,692
Depreciation	9,887,949	9,516,569
Total operating expenses	<u>19,885,625</u>	<u>18,377,893</u>
Nonoperating revenues/(expenses)		
Investment income	29,237,626	11,974,306
Gain on sale of capital assets	6,053	11,981
Amortization of bond premium	1,073,626	492,099
Interest expense	(31,666,828)	(14,237,863)
Bond issuance costs	(2,045,822)	(4,429,496)
Amortization of loss on early retirement of debt	(20,789)	(20,784)
Landfill closure and posclosure care costs	(5,119)	(6,686)
Total nonoperating revenues (expenses)	<u>(3,421,253)</u>	<u>(6,216,443)</u>
Income (loss) before contributions and transfers	3,952,140	1,749,952
Capital contributions	<u>1,363,657</u>	<u>22,489</u>
Change in net position	5,315,797	1,727,463
Net position, beginning	<u>33,570,645</u>	<u>33,570,645</u>
Net position, ending	<u>\$ 38,886,442</u>	<u>\$ 35,298,108</u>

The Authority's total revenue increased approximately 3% (\$914,730) due to increased charges for services related to additional bond projects in the prior and current year. The total of all operating and non-operating expense was \$53,624,183, an increase of 45% from the previous year. The increase in total expenses was due primarily to significant bond issuance costs due to large debt issuances throughout the year, as well as increased operating costs within the Collin-Grayson Fund due to rising costs of purchased water.

DEBT AND CAPITAL ASSET ADMINISTRATION

Long-Term Debt

As of September 30, 2024, the Authority carried long-term debt of \$858.6 million, an increase of \$188.1 million compared to the prior year. The Authority issued 2 new bonds in the current year, one with the City of Sherman totaling \$197.4 million and the other with Arledge Ridge Water Supply Corporation totaling \$2.9 million. Sherman continues its needs for improved and expanded water and wastewater facilities for its steady population growth.

The Authority's revenue bonds are issued by pledging contractual revenues, whereby the participating entity pledges to make payments to the Authority sufficient to cover all future debt service. Many of these issuances are issued through revolving loan funds or other programs of the Texas Water Development Board.

Outstanding Long-Term Debt

	2024	2023
Anna-Melissa	\$ 1,450,000	\$ 1,905,000
Arledge Ridge WSC	2,880,000	-
Bearcreek SUD	6,530,000	6,725,000
City of Bells	7,425,000	7,565,000

City of Valley View	685,000	700,000
City of Van Alstyne	6,700,000	7,050,000
City of White Shed	3,520,000	3,520,000
City of Whitewright	9,740,000	9,860,000
	<u>\$ 858,590,553</u>	<u>\$ 670,535,890</u>

More detailed information about the Authority's long-term liabilities is presented in Note III.H to the financial statements.

Capital Assets

At the end of fiscal year 2024, the Authority had \$441,398,383 in land, building and improvements, office furniture and equipment, landfill equipment and machinery, and construction in progress net of accumulated depreciation. During the current fiscal year, the Authority expended approximately \$293 million in construction costs for the various projects funded by the participating entities. Approximately \$12.6 million of projects were completed and transferred to projects in service.

	2024	2023
Projects in Service	\$ 120,695,362	\$ 114,637,886
Water Storage Rights	20,021,383	20,021,383
Construction in Progress	292,971,399	78,913,476
Land	7,596,721	3,206,479
Machinery & Equipment	<u>113,518</u>	<u>41,441</u>
Total	<u>\$ 441,398,383</u>	<u>\$ 216,820,665</u>

More detailed information about the Authority's capital assets is presented in Note III.C. to the financial statements.

FUTURE PLANS AND ACTIVITIES TO BE UNDERTAKEN IN THE FISCAL YEAR ENDING SEPTEMBER 30, 2024, AND BEYOND

The Authority has several projects to be undertaken in the next fiscal year and beyond including the following:

City of Sherman Projects - At the City's wastewater treatment plant, the Authority has several projects that are under design and/or construction. These projects are being funded by a 2019 and 2020 bond series. These projects are 1) Aeration Basin upgrades which will modify aeration configuration, new blowers and new orifices; 2) Biological Clarifiers which will involve repairing the weirs; 3) Primary Clarifier Rehabilitation which will include a new walkway, electrical, center drive, troughs, valves and concrete repair; 4) Sludge Transfer Station Rehab which will include replacement of equipment deteriorated and corroded due to exposure to sewer gas and many years of use; 5) Operations Control Building Renovation and Expansion, comprised of expansion of the existing building to include more offices, operations laboratory space, more plant monitoring space, storage, locker and shower space, and accommodation of female employees; and 6) New Lab Building at the Wastewater Treatment Plant. In 2021, the construction of the Storm Water Lift Station Replacement and Expansion was completed which was funded by the same bond issuances. This project included installation of two (2) pumps, increased storage and greater lift station capacity, and redundancy for maximum stormwater flows. The other projects are expected to be completed in early 2024.

A new sewer line and lift station began construction in 2021. The project, Northwest Sewer, serves a recently annexed part of Sherman on the west side of town near Highway 82. This project was completed in late 2023.

There are also several smaller water and wastewater pipeline projects that the Authority is financing which will be constructed by the City of Sherman's crews. These projects will be undertaken as time allows.

The Authority issued bonds in 2022 and 2023 for design and construction of several major infrastructure projects including but not limited to water treatment plant expansion, pump station expansion, major transmission pipeline, elevated storage tank, and wastewater treatment plant expansion as well as a new wastewater treatment plant for the Texas Instrument's new semiconductor manufacturing plant and Global Wafer's silicon wafer factory coming to the Sherman area. The next bond issuance to support the project will close in early 2024.

The Authority was awarded the Bond Buyer's 2023 Small Issuer Financing Deal of the Year award for the Sherman 2023A Bond Issuance. The introduction video for the award can be viewed here: <https://youtu.be/69CRjbn-EN4>.

City of Princeton Projects - The Authority has issued bonds for the City to construct a new wholesale water delivery point which will include a meter vault, ground storage tank and pump station.

The Authority issued bonds in 2022 to fund the design and construction of a new elevated storage tank along with the water lines to connect the new elevated storage tank to the City's water system. Both project are nearing completion.

City of Van Alstyne Projects - The Authority also issued bonds for the engineering and construction of some improvements to the City's water system. The final project with these funds will add ammonia feeds at one of the City's well sites, which will set the City up long term for receiving surface water. This project is currently under construction and is expected to be completed in 2025.

The Authority issued bonds through the TWDB in 2021 to fund the addition of a new elevated storage tank for the City. The City is growing, and they need to increase their elevated storage capacity to maintain compliance with state regulations. The project was bid out in 2023 and construction is expected to be completed in 2025.

Lake Kiowa SUD Projects - Within the last 5 years, the Authority issued two (2) bond series to build a new elevated storage tank and replace the SUD's aged asbestos cement pipelines. The elevated storage tank and phases 1 and 2 are now complete. The Authority issued additional bonds through the TWDB in 2021 to construct phase 3 and 4 of the water line replacements. Construction began in 2022 and was completed in 2024.

Beginning in the summer of 2023, design work began on Phase 5 of the Lake Kiowa water line replacement projects and the Authority will be seeking a new bond issue for Phase 5 in the coming year.

City of Pottsboro - In 2019, the Authority issued bonds for the City to construct a new wastewater treatment plant and lift station. This project will expand the city's treatment capacity to keep up with a growing service area. This project is currently under design and during the design process the engineers have recommended

that we pursue additional funds due to the recent inflation in construction and materials prices. The Authority issued additional bonds for additional funds. This project is under construction and is expected to be completed in 2025.

City of Paradise - The Authority has issued bonds for the City to construct new water lines that will extend water service to residents of Paradise, and improvements to the City's elevated storage tank. These projects have been bid and construction was completed in late 2023.

City of Whitewright - The Authority issued bonds for the City in late 2019 to construct a new water well ground storage tank, pump station, re-coating of an elevated storage tank, and water line replacements. The project was divided into three separate projects. The water line replacement and new water well is under construction and is anticipated to be completed in 2024. The bond issuance did not have significant funds to fund all three projects due to the ongoing inflation in construction pricing and delays in materials. The Authority was invited to apply for additional funds through TWDB. The bond issuance is expected to close in 2025.

The Authority issued bonds through the TWDB to upgrade the City's wastewater treatment plant. This will be a major rehabilitation which will replace multiple treatment units that have deteriorated after decades of use. The project is currently under design and is expected to be under construction in 2025.

Bear Creek Special Utility District - The Authority issued bonds in 2019 for the Special Utility District to construct a new ground storage tank, pump station, and water lines to connect to the new pump station. These items have been divided up into two projects to separate the water line work. The water line project was completed 2021. The pump station and ground storage tank was completed in 2023.

City of Kaufman - The Authority issued bonds in early 2020 to fund improvements to the City's wastewater treatment plant by upgrading several critical components at the plant that have reached the end of their useful life. This project commenced construction in 2020 and was completed in 2024.

Collin-Grayson Municipal Alliance - The Authority issued bonds in late 2022 to fund an expansion of the Bloomdale Pump Station. The project was bid out in 2023 and is currently under construction. The project is expected to be completed in 2025.

City of Henrietta - The Authority has closed on a new bond issuance through the TWDB to fund a new wastewater treatment plant along with a lift station and force-main to divert wastewater from the City to the new facility. The project is under design currently and is expected to be under construction in 2025.

City of Bells - The Authority issued bonds through the TWDB in 2022 to fund improvements to the City's water and wastewater system. The wastewater project will include improvements to the City's WWTP in addition to potential wastewater collection line replacements. For their water system, this issuance will fund a new water well, ground storage tank, meter replacements, and the replacement of some of the aged water lines in the City's water distribution system. Meter replacement has already begun. Design and construction on the other projects commenced in 2024.

City of Valley View - The Authority closed a new bond issuance in 2022 through the TWDB to fund the planning and design of a wastewater project(s). The City's WWTP is nearing capacity and the City has engaged an engineer to determine the most cost-effective way to solve the capacity issue at the WWTP. The solution will likely include an expansion of the WWTP in addition to replacement of many of the aged lines in the City's wastewater collection system. Planning and design for this project occurred in 2023.

The Authority will be pursuing a bond issue in 2025 for the construction of the WWTP improvements and wastewater line replacement based on the findings of the testing completed in the planning phase and the results of the design work.

City of Dorchester - The Authority closed a bond issuance in 2022 through the TWDB to fund the addition of a new water well, ground storage tank and pump station to the City's water system. The project is under design and construction is expected in 2025.

Northwest Grayson Water Control Improvements District No. 1 - The Authority closed a bond issuance in 2022 through the TWDB to fund the addition of a new elevated storage tank to their water system. The system is growing and approaching the limits of the TCEQ's elevated storage requirements. The project is under design currently and construction began in 2024.

Gober Municipal Utility District - The Authority issued bonds to fund waterline replacement for Gober MUD's water system. Construction of the project was awarded in December of 2022 and the project was completed in late 2023.

The Authority issued bonds in 2023 through the TWDB to fund an electrical improvement project for Gober MUD's water system. The project is under design and construction began in 2024.

White Shed Water Supply Corporation - The Authority issued bonds through the TWDB in 2023 to fund a new well and elevated storage tank for White Shed WSC's water system. The project is in construction in 2024.

City of Gainesville - The Authority closed a new bond issuance in 2022 through the TWDB to fund the replacement of the water transmission main along Foundry Road. The City's current transmission main is 80+ years old and suffers significant leaks. Currently in design phase, the Authority anticipates construction to begin in 2025.

Arledge Ridge Water Supply Corporation - The Authority issued bonds through TWDB for multiple water system improvements for Arledge Ridge WSC in 2024.

Hickory Creek Special Utility District - The Authority met with Hickory Creek SUD to discuss multiple projects needing funding for the water and wastewater system. The Authority is anticipating issuing bonds through TWDB for a new elevated storage tank and water line improvements for Hickory Creek SUD in 2025.

Additionally, the Authority is anticipating issuing bonds through TWDB in 2025 for a new system acquired by Hickory Creek SUD recently. These bonds would be used to fund needed improvements to the water and wastewater system.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Debi Atkins, Finance Officer, at 5100 Airport Drive, Denison, TX 75020.

GREATER TEXOMA UTILITY AUTHORITY

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2024

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Greater Texoma Utility Authority (the "Authority") is a political subdivision of the State of Texas. The Authority operates pursuant to its enabling legislation and the applicable provisions of Chapters 30, 49, and 54 of the Texas Water Code. The creation of the Authority was declared to be essential to assist incorporated cities, towns or villages to develop water, sewer, and solid waste facilities on a regional basis. In July 1983, by legislative approval, this entity's name was changed from Greater Texoma Municipal Utility District to its present name.

Initially, the Authority was comprised of all the territory that is contained within the corporate boundaries of the cities of Denison and Sherman, Texas. Both cities held an election on August 11, 1979, which confirmed the Authority's legislative ability to issue revenue bonds, contract for services related to water, sewer, or solid waste activities, and implement any other activities that member cities might wish to contract for and finance. Subsequent to the creation of the Authority, the cities of Gunter, Howe, Pottsboro, Tioga, Tom Bean, Whitewright, Whitesboro, Gainesville, Muenster, Bailey, Valley View, Leonard, Van Alstyne, Collinsville, Ector, and Anna requested annexation to the Authority and have been annexed through actions of the Board of Directors.

The Authority is governed by a nine-member Board of Directors comprised of officials appointed by the city councils of member cities of the Authority. The cities of Denison and Sherman each appoint three members to the Board, the City of Gainesville appoints one member, the City of Anna appoints one member, and one at-large member is selected by the remaining member cities. None of the member cities appoints a majority of board members. For purposes of control and daily management, the Authority is centrally operated and administered. Administration of the Authority entails fiscal as well as management control of the Authority's respective operations.

The Authority is independent of and overlaps many formal political boundaries. Financial information for these entities is not included in the accompanying financial statements. Member governments and other participants (collectively participating entities) of the Authority are as follows:

<u>Member Cities</u>		<u>Other Participants</u>	
Sherman	Mustang	Argyle Water Supply Corp.	City of Krum
Denison	Pottsboro	City of Bells	City of Melissa
Gainesville	Tioga	Bolivar Water Supply Corp.	Northwest Grayson County WCID # 1
Anna	Tom Bean	Town of Callisburg	Town of Oak Ridge
Bailey	Valley View	Town of Dorchester	City of Paradise
Collinsville	Van Alstyne	Gober MUD	City of Sadler
Ector	Whitesboro	City of Lindsay	City of Savoy
Howe	White Shed	City of Princeton	City of Southmayd
Muenster	Whitewright	Red River Authority	Marilee SUD
		North Texas Grndwater Dist.	Two Way SUD
		Red River Grndwater Dist.	Woodbine Water Supply
		Bearcreek SUD	Lake Kiowa SUD
		City of Kaufman	City of Henrietta
		City of Valley View	Arledge Ridge Water Supply Corp.

The Board of Directors has the decision-making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. Therefore, the Authority is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB"). The Authority is not a component unit of any of its participating entities. Furthermore, none of the participating entities are a component unit of the Authority.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Authority is a special-purpose government engaged in a single business-type activity; therefore, the financial statements are presented as enterprise funds.

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

The projects of each participating entity are accounted for as a separate enterprise activity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses. Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues for the enterprise funds are charges to the various projects based on the requirements needed to service the debt. Operating expenses for the enterprise funds include administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Authority reports the following major funds:

Collin-Grayson Municipal Alliance Fund: The Authority's bonds for the Collin-Grayson Municipal Alliance comprised of the cities of Anna, Howe, Melissa and Van Alstyne, were issued to finance acquisition and construction of water facilities. Revenues from the Alliance are pledged to secure the bond debt. This fund records these amounts from the Alliance as revenues. The fund reports expenses related to administrative costs and interest associated with the bonds. The Authority operates and maintains this regional wholesale water system for the benefit of the cities of Anna, Howe, Melissa and Van Alstyne.

Lake Texoma Reallocation Project Fund: The Authority facilitates the issuance of bonds for the Lake Texoma Allocation Project, comprised of the cities of Collinsville, Denison, Gainesville, Gunter, Lindsay, Pottsboro, Sherman, Southmayd, Whitesboro and the special utility districts of Marilee, Northwest Grayson County, Lake Kiowa SUD, Woodbine Water Supply, Two Way Water and Red River Authority to finance acquisition of water storage rights in Lake Texoma. Revenues from the various entities are pledged to secure the bond debt. This fund records these amounts from the entities as revenues. The fund reports expenses related to administrative costs and interest associated with the bonds.

Princeton Projects Fund: The Authority facilitates the issuance of bonds for the City of Princeton to finance acquisition and construction of water and sewer facilities. Revenues from the City of Princeton are pledged to secure the bond debt. This fund records these amounts from the City as revenues. The fund reports expenses related to administrative costs and interest associated with the bonds.

Sherman Projects Fund: The Authority facilitates the issuance of bonds for the City of Sherman to finance acquisition and construction of water and sewer facilities. Revenues from the City of Sherman are pledged to secure the bond debt. This fund records these amounts from the City as revenues. The fund reports expenses related to administrative costs and interest associated with the bonds.

The activities for all of the Authority's nonmajor enterprise funds are reported in a single column in the financial statements.

C. Assets, Liabilities, Deferred Outflows of Resources, Net Position, Revenues, and Expenses

Cash, Cash Equivalents, and Investments

Cash and cash equivalents consist of cash on hand, cash held in demand deposit accounts at financial institutions, cash held with fiscal agents, and balances held by public funds investment pools. Accrued interest is shown separately on the balance sheet. Since the Authority does not maintain a pooled cash account for use by all funds, any cash overdrafts that may result are treated as current liabilities.

For the purpose of the statement of cash flows, the Authority considers all highly liquid investments (including restricted assets) with maturity of three months or less when purchased to be cash equivalents.

Pooled and temporary investments consist of investment pools, certificates of deposit, and U.S. government securities. Investment pools are reported at net asset value per share, which approximates fair value. The Authority's certificates of deposit are considered nonparticipating investments and, therefore, are reported at amortized cost. U.S. government securities are reported at fair value. The Authority's intent is to hold U.S. government securities to maturity. Funds are invested in accordance with applicable provisions of State law.

TexPool and TexSTAR have a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

Restricted Assets

Restricted assets of the Authority represent assets restricted as sinking funds for bond payments mandated by bond covenants as well as certain construction funds held in escrow.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Accrued interest receivable is recognized for unrealized interest earnings on investments.

Capital Assets

The Authority defines capital assets as assets with an initial, individual cost of \$250 or more and an estimated useful life in excess of two years, except for project capital assets described below. Capital assets are recorded at cost or, if donated, at their acquisition value at the date of donation. Expenses that materially extend the useful life of existing assets are capitalized. Certain costs for professional services associated with the acquisition and construction of capital assets have been capitalized. The cost of capital assets sold, retired, or transferred to participating entities is removed from the appropriate accounts and any resulting gain or loss is included in the increase in net position.

Project capital assets are defined as direct and indirect costs associated with construction or acquisition related to bond-funded projects for participating entities. During the period in which bonds are outstanding on project facilities, ownership of these assets is vested in the Authority to comply with state and federal regulations. After all associated debt and claims have been extinguished; ownership is transferred to the appropriate participating entity.

Depreciation is computed using the straight-line method based upon the following estimated useful lives:

Projects in Service	10 to 40 years
Leasehold Improvements	17 to 35 Years
Office Equipment and Furniture	3 to 11 Years
Vehicles	5 Years

The useful lives of projects in service are estimated as equal to the remaining life of the related debt at the conclusion of the construction phase.

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then. The Authority reports one type of deferred outflow. Deferred charges on bond refunding arise from the difference between the carrying value of refunded bonds and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Long-Term Obligations

Long-term liabilities consist of revenue bonds payable that are accounted for in the specific fund responsible for the repayment of debt.

Compensated Absences

Accumulated unpaid compensated absences represent the estimated liabilities for accumulated and unpaid absences for vacation leave of employees according to prescribed policies. Accumulated unpaid vacation pay is accrued when incurred. The Authority encourages employees to use their vacation each year to minimize amounts carried over. For this reason, accrued compensated absences are considered a current liability.

Unearned Revenue

Unearned revenue arises from cash received before the related performance requirements have been met. Unearned revenue primarily consists of prepayments from member governments for next year's payments, generally in situations where debt service payments are made soon after year-end. Other unearned revenues consist of unspent grant proceeds.

Net Position

Net position represents the difference between assets, deferred outflows (inflows) of resources and liabilities. Net position is categorized as:

Net Investment in Capital Assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balance of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of investment in capital assets, net of related debt. Rather, that portion of debt is included in the same net position component as the unspent proceeds.

Negative balances invested in net investment in capital assets are attributable to outstanding debt greater than capital assets net of accumulated depreciation. This is because project capital assets are depreciated on a straight-line basis over the life of the related debt, whereas debt principal payments are not necessarily equal amounts.

Restricted Net Position - This component of net position consists of constraints placed on the use of net position by external restrictions imposed by creditors (such as through debt covenants) or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. The restricted net position of the Authority represents sinking fund reserves that are mandated by bond covenants to be maintained.

Unrestricted Net Position - This component of net position consists of net position that does not meet the definition of *net investment in capital assets* or *restricted net position*. It is the Authority's policy to spend funds available from restricted sources prior to unrestricted sources.

Net Position Flow Assumption

Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond and grant proceeds) and unrestricted resources. To calculate the amounts to report as *restricted net position* and *unrestricted net position*, a flow assumption must be made about the order in which the resources are considered applied. It is the Authority's policy to consider *restricted net position* to have been depleted before *unrestricted net position* is applied.

Interfund Transactions

Interfund services provided or used are accounted for as revenues or expenses. Transactions that constitute reimbursements within individual funds for expenses initially made from it, which are properly applicable to another fund, are recorded as expenses in the reimbursing fund and as reductions of expenses in the fund that is reimbursed.

Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimations and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgets

The Authority's Board of Directors adopts an annual operating budget as a financial plan for the year, pursuant to the legal requirements of the Authority's bond documents and contracts with participating entities. Budgetary basis financial statements are not presented as part of the basic financial statements because there is no legal requirement to do so. Budget information is, however, presented as supplemental schedules.

B. Deficit Net Position

As of September 30, 2024, the Authority reported deficit net position in the following funds:

Nonmajor Funds:	2024
Arledge Ridge	\$ 42,187
Howe	389
Krum	227,300
General	14,426

These deficits arise for projects in service depreciating more quickly than the related debt and will be absorbed by future revenues from the participating entities.

III. DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The Authority's deposits and investments are invested pursuant to its investment policy guidelines as directed by the Texas Public Funds Investment Act. The depository bank deposits for safekeeping and trust with its agent approved pledged securities authorized by Chapter 2257 Collateral for Public Funds of the Government Code in an amount sufficient to protect Authority funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. The objectives primarily emphasize safety of principal and liquidity and address investment diversification, yield, and maturity and the quality and capability of investment management and a list of the types of investments.

Cash and deposits of the Authority include all amounts deposited at the Authority's depository bank, including demand deposits and certificates of deposit. As of year-end the Authority's cash deposits were entirely covered by FDIC insurance or by pledged collateral held by the Authority's agent bank in the Authority's name.

The following are investments held by the Authority at year-end:

Description	Measurement Basis	Fair Value Measurement	Reported Value	Weighted Average
		Level		Maturity (Days)
Certificates of Deposit	Cost	N/A	\$ 363,856,410	142
TexPool	NAV	N/A	49,106	26
TexSTAR	NAV	N/A	<u>80,726,959</u>	<u>25</u>
		Total Investments	<u>\$ 444,632,475</u>	<u>193</u>

The certificates of deposit are considered nonparticipating securities because they have no ready market; therefore, they are reported at cost.

Investments in TexPool and TexSTAR are reported as cash equivalents in the financial statements.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the Authority to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of returns, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the Authority to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposits issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivision of any state having been rated as to investment quality no less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or on nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the Authority to have independent auditors perform test procedures related to investment practices as provided by the Act. The Authority is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provision governing investments for the Authority are specified below:

Credit Risk – This is the risk that a security issuer may default on an interest or principal payment. State law limits investment in local government pools to those that are rated AAA or equivalent by at least one Nationally Recognized Statistical Rating Organization (NRSRO). The Authority controls and monitors this risk by purchasing quality rated instruments that have been evaluated by agencies such as Standard and Poor's (S&P) or Moody's Investors Service, or by investing in public fund investment pools rated no lower than AAA or AAAm.

Custodial Credit Risk – Investments: For an investment this is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The Authority's investment in TexPool and TexSTAR are not exposed to custodial risk. External investment pools are not subject to custodial risk because investments are not evidenced by securities that exist in physical or book entry form. State law limits investments in public funds investment pools to those rated no lower than AAA or AAAm or an equivalent rating by at least one nationally recognized rating service. As of September 30, 2024, the Authority's investments in TexPool and TexSTAR are rated AAAm.

Concentration of Credit Risk – To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the Authority limits investments to less than 5% of its total investments. The Authority further limits investments in a single issuer when they would cause investments risks to be significantly greater in the governmental activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government.

Interest Rate Risk – The risk that changes in market interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Authority limits the weighted average maturity of its portfolio. Management considers interest rate risk to be minimal due to the diversity and liquidity requirements imposed on the external investment pools.

B. INTERFUND RECEIVABLE AND PAYABLE BALANCES

During the course of normal operations, the Authority has numerous transactions between individual funds, including expense reimbursement and payments for interfund services provided. All of the balances resulted from the time lag between the dates that reimbursable expenses occur and payments between funds are made.

Interfund receivable and payable balances of the various funds as of September 30, 2024, were as follows:

Receivable Fund	Payable Fund	Amount
Nonmajor enterprise	Collin/Grayson Municipal Alliance	\$ 282,075
Nonmajor enterprise	Lake Texoma Reallocation Project	30,114
Nonmajor enterprise	Princeton Projects	20,790
Sherman Projects	Nonmajor enterprise	1,437,489
Nonmajor enterprise	Nonmajor enterprise	<u>997,968</u>
		<u>\$ 2,768,436</u>

C. CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2024, was as follows:

	Balance 9/30/23	Additions/ Completions	Retirements/ Adjustments	Balance 9/30/24
Capital assets, nondepreciable:				
Land	\$ 3,206,479	\$ 4,390,242	\$ -	\$ 7,596,721
Water Storage Rights	20,021,383	-	-	20,021,383
Construction in Progress	<u>78,913,476</u>	<u>226,655,608</u>	<u>(12,597,685)</u>	<u>292,971,399</u>
Total capital assets, nondepreciable	<u>102,141,338</u>	<u>231,045,850</u>	<u>(12,597,685)</u>	<u>320,589,503</u>
Capital assets, depreciable:				
Buildings	16,980	-	-	16,980
Machinery & Equipment	430,768	108,323	(22,657)	516,434
Projects in service	<u>171,971,843</u>	<u>15,909,179</u>	<u>(3,462,459)</u>	<u>184,418,563</u>
Total capital assets, depreciable	<u>172,419,591</u>	<u>16,017,502</u>	<u>(3,485,116)</u>	<u>184,951,977</u>
Less accumulated depreciation:				
Buildings	(16,980)	-	-	(16,980)
Machinery & Equipment	(389,327)	(36,246)	22,657	(402,916)
Projects in service	<u>(57,333,957)</u>	<u>(9,851,703)</u>	<u>3,462,459</u>	<u>(63,723,201)</u>
Total accumulated depreciation	<u>(57,740,264)</u>	<u>(9,887,949)</u>	<u>3,485,116</u>	<u>(64,143,097)</u>
Net capital assets being depreciated	<u>114,679,327</u>	<u>6,129,553</u>	<u>-</u>	<u>120,808,880</u>
Net capital assets	<u>\$ 216,820,665</u>	<u>\$ 237,175,403</u>	<u>\$ (12,597,685)</u>	<u>\$ 441,398,383</u>

Depreciation expense for the year ended September 30, 2024, was \$9,887,949.

D. COMMITMENTS AND CONTINGENT LIABILITIES

Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; life and health of employees; and natural disasters. During fiscal year 2024, the Authority was covered under a general liability insurance policy plan with a combined single limit of \$1 million as a cost it considered being economically justifiable.

The Authority has commercial insurance for all other risks of loss, including employee health benefits, workers' compensation and employee life and accident insurance. There have been no settlements in excess of insurance coverage during the past three fiscal years.

The Authority may be contingently liable in respect to lawsuits and other claims in the ordinary course of its operations. Settlements, if any, of such contingencies under the budgetary process would require appropriation of revenues yet to be realized. Authority management and legal counsel believe any settlement would not materially affect the financial position of the Authority as of September 30, 2024.

Construction Commitments

The Authority has projects in the construction phase in various cities. Construction commitments, amounts incurred to date, and balances are as follows:

	Construction Commitments	Costs Incurred To Date	Balance 9/30/2024
City of Princeton	\$ 11,573,582	\$ 10,995,853	\$ 577,729
City of Sherman	423,831,129	217,412,307	206,418,822
Bear Creek SUD	6,685,665	6,685,665	-
City of Kaufman	3,089,257	3,089,257	-
City of Paradise	1,266,569	1,266,569	-
City of Krum	1,187,793	1,130,484	57,309
City of Whitewright	2,308,235	2,078,054	230,180
City of Pottsboro	11,411,500	8,219,255	3,192,245
Lake Kiowa SUD	4,131,994	3,960,477	171,517
City of Van Alstyne	4,470,000	3,062,206	1,407,794
CGMA	6,856,890	4,226,978	2,629,912
Bells	1,573,205	1,057,956	515,249

E. RETIREMENT PLAN

The Greater Texoma Utility Authority Retirement Plan (the Plan) is a single employer 401(a) defined contribution plan that covers all full-time employees of the Authority. Greater Texoma Utility Authority administers the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A copy of the pension plan financial statements may be obtained by contacting the Authority. The Authority is responsible for establishing or amending pension plan provisions and contribution requirements. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

Full-time employees are eligible to participate in the Plan after 90 days of continuous employment. The Plan requires that the Authority contribute an amount equal to twelve percent (12%) of the participant's regular annual salary and participants contribute six percent (6%) of the annual salaries. The Authority's contributions for each employee (and interest allocated to the employee's account) are vested at a variable rate with full vesting within seven years.

The Authority's total payroll in fiscal year 2024 was \$867,779; contributions made by the Authority were \$104,134. Total contributions made by employees were \$163,451. Total contributions for the year ended September 30, 2024, were \$267,585. The fair value of the Plan as of September 30, 2024, was \$2,028,988. The Authority had no liability to the Plan as of September 30, 2024.

F. INTERGOVERNMENTAL REVENUES AND CONTRACTS

The Authority has entered into contracts with its participating entities to provide certain water and sewer facilities. The participating entities are required to make the following payments to the Authority: (a) monthly amortization payments - amounts equal to the annual debt service requirements on the outstanding bond issues; (b) reserve fund payments - if not at the required levels; (c) administrative payments - amounts sufficient to pay the administrative and overhead costs of the Authority; (d) extraordinary expense payments - amounts necessary to pay or reimburse the Authority for any extraordinary or unexpected expense or costs reasonably and necessarily incurred by the Authority in connection with the bonds and the projects; and (e) the cost of maintenance and operation of the projects if the Authority is the operator.

G. LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and federal laws and regulations require that the Authority conduct certain closure activities on the Dripping Springs landfill, when closed, and perform certain maintenance and monitoring functions at the landfill site for five years after closure or until all postclosure requirements are met. The landfill stopped accepting solid waste on October 8, 1993; however, the landfill was considered full as of September 30, 1993, for financial reporting purposes and a liability was recognized based on the future landfill closure and postclosure care costs that will be incurred. The actual postclosure care costs incurred in the current year were \$5,432 and \$1,646,820 to date.

The financial obligation for landfill closure and postclosure care costs not recorded by the Authority will be the responsibility of the cities of Sherman and Denison per contractual agreement. Additional postclosure care costs are expected to be incurred and shared equally by the cities during the monitoring phase of the landfill. A gas well monitoring system is in place and operating at the site of the landfill. Based on the best available engineering estimates, costs related to gas and ground water monitoring are not expected to exceed approximately \$100,000 per year and should continue to decline in the future. There is a potential for changes in the estimated costs due to inflation or deflation, technology, or applicable laws or regulations.

H. LONG-TERM DEBT

The Authority facilitates the issuance of bonds for its participating entities to finance the acquisition and construction of water, sewer, and solid waste facilities. The bonds are generally issued by pledging contractual revenue from the participating entities that will be sufficient to cover the debt service.

Long-term debt activity for the year ended September 30, 2024, was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance	Due Within One Year
Revenue bonds payable	\$ 505,997,000	\$ 187,280,000	\$ 5,640,000	\$ 687,637,000	\$ 6,045,000
Revenue bonds - private placement	142,011,365	2,880,000	5,551,979	139,339,386	5,762,445
Premium on bonds	22,527,525	10,106,652	1,020,010	31,614,167	-
Compensated absences	34,957	70,089	34,957	70,089	70,089
Total	<u>\$ 670,570,847</u>	<u>\$ 200,336,741</u>	<u>\$ 12,246,946</u>	<u>\$ 858,660,642</u>	<u>\$ 11,877,534</u>

Debt service requirements to maturity on bonds payable are as follows:

Fiscal Years Ending <u>September 30,</u>	Revenue Bonds			Revenue Bonds - Private Placement			Total Annual Requirements
	Principal	Interest	Total Annual Requirements	Principal	Interest		
2025	\$ 6,045,000	\$ 33,236,060	\$ 39,281,060	\$ 5,762,445	\$ 3,301,622	\$ 9,064,067	
2026	6,955,000	30,926,414	37,881,414	5,567,925	3,219,441	8,787,366	
2027	6,922,000	30,671,568	37,593,568	5,668,418	3,132,415	8,800,833	
2028	11,165,000	30,305,528	41,470,528	5,893,925	3,039,427	8,933,352	
2029	15,455,000	29,719,694	45,174,694	5,979,445	2,939,383	8,918,828	
2030-2034	78,975,000	137,774,713	216,749,713	31,995,547	13,016,586	45,012,133	
2035-2039	100,780,000	116,996,380	217,776,380	25,480,880	10,029,377	35,510,257	
2040-2044	121,450,000	90,727,681	212,177,681	19,225,802	7,494,480	26,720,282	
2045-2049	149,060,000	60,056,492	209,116,492	18,260,000	4,829,992	23,089,992	
2050-2054	178,920,000	22,002,530	200,922,530	8,710,000	2,377,810	11,087,810	
2055-2059	11,910,000	260,203	12,170,203	3,890,000	1,090,916	4,980,916	
2060-2064	-	-	-	2,904,999	248,811	3,153,810	
Total	<u>\$ 687,637,000</u>	<u>\$ 582,677,260</u>	<u>\$ 1,270,314,260</u>	<u>\$ 139,339,386</u>	<u>\$ 54,720,259</u>	<u>\$ 194,059,645</u>	

Certain obligations have been marketed as private placements; however, the repayment terms on these bonds do not significantly differ from other bonds, and do not contain subjective acceleration provisions. In the event of default, any registered owner of the obligations is entitled to seek a writ of mandamus from a court of proper jurisdiction ordering payment.

New Debt Issuances. During the current fiscal year, the Authority issued multiple bonds for various construction projects on behalf of participating entities. These issuances are detailed below. Each is secured by pledged contractual revenues from the participating entities.

Issuance	Original Issue Amount	Net Proceeds	Maturity Date	Interest Rates
<i>Revenue Bonds:</i>				
Contract Revenue Bonds, Series 2024 (Arledge Ridge)	\$ 2,880,000	\$ 2,832,651	10/1/2054	5.44% - 6.14%
Contract Revenue Bonds, Series 2024 (City of Sherman)	187,280,000	195,435,885	10/1/2055	4.38% - 5.00%

Pledged Revenues. Substantially all the Authority's revenue bonds have been issued by pledging a contractual revenue from the related participating entity. Under the contract, the participating entity pledges to make payments to the Authority sufficient to cover all debt service and related costs of the bond. In this manner, each revenue bond issuance is supported by a new pledged revenue stream that will generally equal the debt service costs. In total, for the year ended September 30, 2024, pledged revenues net of expenses were \$47,530,959 compared to debt service expenditures of \$42,573,352 for a coverage ratio of 112%.

Arbitrage. The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed, or not performed correctly, it could result in a substantial liability to the Authority. The Authority has engaged an arbitrage consultant to perform the calculations in accordance with IRS rules and regulations.

I. NEW ACCOUNTING STANDARDS

Significant new accounting standards issued by the Governmental Accounting Standards Board (GASB) not yet implemented by the Authority include the following:

GASB Statement No. 101, *Compensated Absences* - The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement will become effective for reporting periods beginning after December 15, 2023, and the impact has not yet been determined.

GASB Statement No. 102, *Certain Risk Disclosures* - This Statement requires governments to disclose essential information about risks related to vulnerabilities due to certain concentrations or constraints. Concentrations and constraints may limit a government's ability to acquire resources or

control spending. The requirements of Statement No. 102 are effective for fiscal years beginning after June 15, 2024, and the impact has not yet been determined.

GASB Statement No. 103, *Financial Reporting Model Improvements* – The objective of this statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement will become effective for reporting periods beginning after June 15, 2025, and the impact has not yet been determined.

GASB Statement No. 104, Disclosure of Certain Capital Assets – The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be presented separately in the note disclosures, including right-to-use assets related to leases, Subscription-Based Information Technology Arrangements, and public-private or public-public partnerships. Other intangible assets are also required to be presented separately by major class. Additional disclosures have also been required for capital assets held for sale. This Statement will become effective for reporting periods beginning after June 15, 2025, and the impact has not yet been determined.

J. SUBSEQUENT EVENT

On October 24, 2024, the Authority issued its Contract Revenue Bonds, Series 2024, Bear Creek Special Utility District Project, in the amount of \$32,300,000. The bonds contain both serial and term bonds maturing from 2024 to 2044 and bear interest rates of 4.0%-5.0%.

On October 1, 2024, the Authority issued its Contract Revenue Bonds, Series 2024, City of Sherman Project, in the amount of \$91,880,000. The bonds contain both serial and term bonds maturing from 2024 to 2044 and bear interest rates of 4.25%-5.00%.

STATEMENTS AND SCHEDULES**

THIS PAGE LEFT BLANK INTENTIONALLY

NONMAJOR ENTERPRISE FUNDS

The following nonmajor enterprise funds account for bond proceeds and construction costs for projects managed for the Authority's member governments, as well as the contractual revenues received from those entities. A single fund is reported for each member government and includes all bond issues related to those projects.

Nonmajor enterprise funds are reported for the following member governments:

City of Anna / City of Melissa	City of Krum
Arledge Ridge Water Supply Corporation	Lake Kiowa Special Utility District
Bearcreek Special Utility District	City of Melissa
City of Bells	Northwest Grayson
Bolivar Water Supply	City of Paradise
City of Dorchester	City of Pottsboro
City of Ector	City of Sadler
City of Gainesville	City of Tom Bean
Gober Municipal Water District	City of Valleyview
City of Mustang	City of Van Alstyne
City of Henrietta	White Shed Water Supply Corporation
City of Howe	City of Whitewright
City of Kaufman	

Nonmajor enterprise funds reported that are not a part of member governments:

General Fund – this fund accounts for the Authority's administrative function and the revenues to collect indirect costs.

Solid Waste Fund – this fund accounts for revenues and expenses related to post-closure monitoring activities of the Dripping Springs Landfill, which was closed in 1993.

STATISTICAL SECTION

THIS PAGE LEFT BLANK INTENTIONALLY

STATISTICAL SECTION

This part of the Greater Texoma Utility Authority's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's overall financial health.

Financial Trends

This information contains trend information to help the reader understand how the Authority's financial performance and well-being have changed over time.

Revenue Capacity

This information is to help the reader assess the Authority's revenue sources.

Debt Capacity

This information is to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue additional debt in the future.

Economic and Demographic Information

This information offers economic and demographic indicators to help the reader understand the environment within which the Authority's financial activities take place.

Operating Information

This information contains service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides.

Note: As indicated in the following pages, certain statistical information is presented for the prior year, where current-year information would normally be presented. This is caused by current-year information not being readily available. In accordance with Texas Water Code Section 49.194(a), the Authority's financial statements are due to the State of Texas within 135 days of fiscal year-end. However, certain financial and demographic information relating to its member governments is not available until a later time.

SINGLE AUDIT SECTION

THIS PAGE LEFT BLANK INTENTIONALLY

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Directors
Greater Texoma Utility Authority
Denison, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, each major fund, and the aggregate remaining fund information of Greater Texoma Utility Authority, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise Greater Texoma Utility Authority's basic financial statements, and have issued our report thereon dated January 27, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Greater Texoma Utility Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Greater Texoma Utility Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Greater Texoma Utility Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Greater Texoma Utility Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pattillo, Brown & Hill, L.L.P.

Waco, Texas
January 27, 2025

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

Board of Directors
Greater Texoma Utility Authority
Denison, Texas

Report on Compliance for Each Major Federal Program***Opinion on Each Major Federal Program***

We have audited Greater Texoma Utility Authority's (the "Authority") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended September 30, 2024. The Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Authority's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

GREATER TEXOMA UTILITY AUTHORITY

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

FOR THE YEAR ENDED SEPTEMBER 30, 2024

1. GENERAL

The Schedule of Expenditures of Federal Awards (SEFA) presents the activity of all applicable federal award programs of Greater Texoma Utility Authority (the "Authority"). The Authority's reporting entity is defined in Note I of the financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the SEFA.

2. BASIS OF ACCOUNTING

The SEFA is presented using the accrual basis of accounting. The Authority's significant accounting policies, including the accrual basis of accounting, are presented in Note I of the basic financial statements. The SEFA is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some of the amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

3. INDIRECT COSTS

The Authority did not elect to use a de minimis cost rate as described at 2 CFR §200.414(f)—Indirect (F&A) costs.

4. PASS-THROUGH EXPENDITURES

None of the expenditures presented on the SEFA were passed through to subrecipients.
